Energy in Buildings Athens Conference 2024

Saturday November 23, 2023
Grand Hyatt Athens, Hellas

#	ARIS PAPADOPOULOS	
Title:	President & CEO ZEB SA	
email:	arpap@zeb.gr	•
Presentation title:	Investment Opportunities in High Performance Buildings	
	<p>Designing a High Performance Building is not a necessity that arises only due to climate change or obligatory issues for sustainability reporting. It emerges due to the opportunities it provides to create sustainable, resilient, healthier and cost-saving buildings with increased value. The presentation focuses on these opportunities and how they can be achieved</p>	
CV:		
	<p>Aris Papadopoulos is founder and holds the position of Chairman and CEO of ZEB SA, Energy Services Company (ESCO), among the first companies established according to the new institutional framework. Prior to the establishment of ZEB SA, over the last 20 years he has worked and managed a large number of construction projects (public and private) on behalf of a large construction group in the country as well as high technology and telecom projects on behalf of one of top SYSTEM INTEGRATOR companies. In ZEB SA he implements plans and policies for successful business management and defines the strategy for the development of innovative services.</p>
